## Capture Revenue From 3PL Services

*Automate your billing processes to accurately capture every shipping, receiving, and recurring storage charge, allowing you to invoice quickly and better manage your cash flow.*

- **Customer-Specific Billing:** automate billing by setting up customer-specific rates and manage separate billing schedules per customer.
- **Automated Billing Processes:** Set up automatic charges for recurring storage, capture service fees on a mobile device, and create billing rules.
- **Easy Integration:** Integrate with QuickBooks to easily export billing data from 3PL Warehouse Manager to QuickBooks to easily create and export invoices.

## Core Features

*3PL Billing Automation uniquely offers customer these capabilities:*

- **QuickBooks Integration:** Synchronize billing data from WMS with QuickBooks Online.
- **Automated Transactional Billing:** Automate shipping and receiving charge capture to boost efficiency.
- **Invoice Management:** Automatically generate invoices and share them with customers.
- **Recurring Storage Fees:** Capture recurring fees with flexible unit of measure and frequency options.
- **Mobile Charge Capture:** Capture value-added service charges from a mobile device.

## Return on Investment

*Our customers have:*

- **Reduce billing time by 75%** by automating billing processes.
- **Generate invoices in <1 minute** by instantly turning orders into invoices and with faster payments.
- **Boost monthly profit by 3%** by capturing billable events in real time, avoiding under-billing.
